\$25	New Lawyer Non-Members
\$65	Non-Members

Non-Attorney: 50% off applicable attorney registration fee

Cancellations received by noon the business day prior to the seminar will be refunded in full minus a \$25 processing fee.

PROGRAM

This CLE will focus on the intersection of artificial intelligence and the legal field by providing a foundational understanding of the ethical implications of AI in legal practice. Key topics will include a discussion of current AI technology, the risks and ethical considerations of AI in accordance with the ABA's mandates, and real-world applications and guidelines on managing AI in legal contexts.

PRESENTER

Jason Primuth, Chief Innovation Officer, Lexitas

Jason brings a broad experience in court reporting technology. He founded NextGen Reporting, a deposition services firm that pioneered remote depositions and was acquired by Lexitas in 2017. He served as the General Manager of RealLegal and Vice President of Sales at LiveNote, Inc. Jason also played a key role in the successful launch and growth of YesLaw software at YesVideo, regularly educating professionals on litigation technology at various conventions. Jason studied international politics and diplomacy at the George Washington University in Washington D.C.
